1. 1.5

MEMORANDUM FOR: Inspector General, CIA

SUBJECT: [REDACTED]

1. This officer's efficiency reports for the period 9 March 1951 to 31 May 1952, have been evaluated. He has not fared badly. He went into his present assignment as a Major with an index of 120 (for 37 months service). His index has dropped to 112 (for 5 months service). Both of these indices place him in the middle two-thirds of all Army officers. The Army breakdown is:

Upper 1/6th have efficiency indices 121 and higher.  
Middle 2/3rd have efficiency indices 75 thru 120.  
Lower 1/6th have efficiency indices 74 or lower.

2. [REDACTED] is actually in the upper one-fourth bracket.

3. The efficiency reports for the period are being referred to the officer's desk chief in CIA for concurrence or additional rating to reflect his performance in his CIA duties. In either case, comments will be presented to the Army Selection Board, in a secure (non-record) manner, when it convenes to select officers for promotion to permanent Major.

4. I am confident that his chances, even without supplementary information, are excellent. I do not believe that his career has been damaged or that he has suffered an injustice.
